

VINOD KUMAR YADAV

Frontend Engineer | React.js

Bangalore, India • deepyadav153107@gmail.com • +91-8542824307 [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with 4.5+ years of experience (including internship) building scalable, high-performance React.js applications for fintech and enterprise platforms. Deep expertise in component-based architecture, Redux state management, TypeScript, REST API integration, and responsive UI/UX. Proven track record delivering complex, role-based SaaS products — including a multi-stakeholder Loan Origination Platform and an Account Management System — from design to production. Adept at collaborating within Agile/Scrum teams, conducting peer code reviews, and driving continuous improvement across the full frontend development lifecycle.

CORE COMPETENCIES

Frontend: React.js, Redux / Context API, Next.js, TypeScript, JavaScript ES6+, HTML5, CSS3

API & State: REST API, Axios / Fetch, React Hooks, State Management Patterns

DevOps & Tools: Git, GitHub, CI/CD Pipelines, Docker, AWS (S3, EC2), VS Code, npm

Styling: SASS/SCSS, Bootstrap, Tailwind CSS, Responsive & Mobile-First Design

Testing: Jest, React Testing Library, Unit & Integration Testing

Architecture: Component-based Architecture, Role-based Access Control, Design Patterns

PROFESSIONAL EXPERIENCE

Frontend Developer | Sequro Technologies Pvt. Ltd | Dec 2021 – Present | Bangalore, India

Loan Origination Platform — Customer Portal & Back-Office CRM

- Architected and developed responsive React.js + TypeScript interfaces for a multi-stakeholder loan origination platform serving customers, admins, supervisors, distributors, agents, and retailers.
- Engineered dynamic role-based dashboards with granular access control, improving operational efficiency for back-office teams by reducing manual reporting overhead.
- Built multi-step loan application workflows with real-time form validation, error handling, conditional rendering, and seamless state management using Redux and React Hooks.
- Integrated REST APIs (Axios) for real-time updates on loan status, KYC verification, commission tracking, and payout dashboards — reducing data latency by ~40%.
- Implemented interactive data visualisation components (charts, dynamic tables) for channel partner analytics and back-office reporting dashboards.
- Led frontend performance optimisations — lazy loading, code splitting, and memoisation — improving initial page load time by ~30% on mobile devices.
- Collaborated in Agile/Scrum ceremonies, conducted peer code reviews, and mentored junior developers on React best practices and component reusability.

Account Management System (AMS)

- Built a responsive React.js Account Management System with real-time account details, balance tracking, and transaction history using REST API integration.
- Designed interactive dashboards for account summaries and recent transactions; implemented robust form validation and state management for secure account updates.
- Engineered reusable component library reducing development time for new features by ~25%.

Credit Card Onboarding & Management System

- Developed a full credit card application and onboarding flow (customer details, KYC submission, review) with dynamic React Hook-based validation and controlled components.
- Built user-facing dashboards displaying credit card details, credit limits, usage summaries, and real-time application status via REST API polling.
- Collaborated with UI/UX designers to implement pixel-perfect, WCAG-compliant responsive interfaces across web and mobile breakpoints.

Frontend Developer Intern | Naresh IT Pvt. Ltd | Jan 2020 – Nov 2021 | Bangalore, India

- Completed intensive hands-on training in React.js, JavaScript (ES6+), HTML5, CSS3, and Node.js fundamentals; delivered responsive UI components and small-scale web applications.
- Gained exposure to professional frontend development workflows, version control (Git), and Agile team collaboration.

EDUCATION

B.Tech — Computer Science Engineering | Punjab Technical University | 2016 – 2020

CERTIFICATIONS & TRAINING

-
- React.js — Udemy (Certificate of Completion)
 - Frontend Developer Internship — Naresh IT Pvt. Ltd
